SHARED KNOWLEDGE CONFERENCE
Featuring the 60th Annual Faculty Research Lecture

BUILDING THE STRONGEST MEDICAL SCHOOL APPLICATION

While everyone recognizes that a great GPA and strong MCAT scores are the foundation of a medical school application, they are not enough to be considered a top-notch candidate. Let's talk about some of the other activities and experiences that need to be part of your application in order to demonstrate to admissions committee members that you understand what a career in healthcare is going to be like and you have some insight into the unique skill set you will bring to the profession.

No advanced registration required!

Brought to you in part by UNM STEM Collaborative Center, funded through a U.S. Department of Education Title V grant through 2019 (total anticipated funding \$2.6 million).
