

2015 SKC

SHARED KNOWLEDGE CONFERENCE
Featuring the 60th Annual Faculty Research Lecture

STEM SUMMER EVENTS

Are you a STEM student wondering what to do this summer? Even if you are taking classes or working, there are many fun summer events and projects to help you in your future academic work and explore careers. STEM Summer is available to all UNM students, but is especially for first- and second-year students. Come and see the scientific wonders of New Mexico with researchers doing the work that you could be doing soon, too.

This session is an opportunity to learn about and reserve your spot for the various summer trips and projects such as ecology tours at the Valles Caldera, design projects at Air Force Research Laboratories, and galaxy gazing at the Very Large Array. Where would you like to go?

No advanced registration required!

Brought to you in part by UNM STEM Collaborative Center, funded through a U.S. Department of Education Title V grant through 2019 (total anticipated funding \$2.6 million).

PRESENTED BY:
TARA HACKEL
STEM COLLABORATIVE,
UNM

THURSDAY, APRIL 23
3:00 PM — 3:55 PM

SUB THIRD FLOOR:
SANTA ANA B
