

2015 SKC

SHARED KNOWLEDGE CONFERENCE
Featuring the 60th Annual Faculty Research Lecture

STRENGTHENING YOUR STUDY SKILLS IN SCIENCE & ENGINEERING

So you took the test, you got your grade, and now wondering if you can do better. You can! Getting an "A" is more than just memorizing the material. In this session, learn more about how you can tackle your science and engineering classes to score higher grades and absorb content more effectively.

CAPS and STEM Gateway staff will discuss what you can expect in these classes and how you can succeed. You will also learn about programs on campus that can help you along the way.

No advanced registration required!

Brought to you in part by UNM STEM Collaborative Center, funded through a U.S. Department of Education Title V grant through 2019 (total anticipated funding \$2.6 million).
