Serve, Learn & Earn

...with the UNM Service Corps!

UNM Service Corps Now Hiring UNM and CNM Students!

The UNM Service Corps is recruiting students to participate during fall 2016. Workstudy and scholarship opportunities for students!

Founded in 1997, the UNM Service Corps is a collective of university students that participate in long-term civic engagement throughout Albuquerque's lower socio-economic communities. We currently have student members serving with various communities, neighborhood groups, local schools, and non-profits in order to address critical social and educational issues that face children, youth, and families.

Interested students can apply here: <http://communityengagement.unm.edu/service-corps/get-involved.html>

Congratulations to the 2016 Cohort of the "Innovation Academy for Women"

The Innovation Academy for Women of the Americas (The Academy) is a first-of-its-kind partnership between UNM, Universidad La Salle México and Universidad Autónoma de Yucatán. It is a pilot program bringing together undergraduate women from New Mexico and undergraduate women from Mexico whose majors are in the field of Science, Technology, Engineering, Mathematics or Architecture.

U.S. Ambassador to Mexico Roberta Jacobson remarked in writing to The Academy, "I am proud to congratulate the Mexican and U.S. women who graduated today from The Academy for Women of the Americas."

Still Searching for Fall Courses? Check These Out!

ENGL 315: "Black Lives Matter & The Literature of Black Nationalism"

In this course, students will explore the political, literary, cultural, and historical origins of the Black Lives Matter Movement; arguably the most controversial and impactful social movement of this generation. This new upper-division class can count as an elective for many STEM students and is also under consideration as counting toward the UNM Diversity requirement. Interested students may contact the instructor, Dr. Finnie Coleman, at coleman@unm.edu

UHON 121-019, 020, 021: "Legacy of the Renegade"

What is a renegade? Outsider? Pioneer? In this course, we will explore the trajectory of the renegade in American Arts and Lit. from the 19th century emergence of Jazz, the creation of Wonder Woman, to the morass of the Vietnam War and more. We'll focus on renegades who have reached "success," and also study those that have met worse fates. Interested students may contact the instructor, Nora Hickey, at nhickey@unm.edu

UNIV 391-011: "Seminar in Community Engagement, Leadership & Global Education"

Students can now earn University of New Mexico credit while getting real world experience and making a difference in the lives of others! This web-enhanced course is for students interested in local to international community partnership building. Within the policy framework of the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP), Indigenous Knowledge and Paulo Freire's Critical Theory, this course will examine service-learning/community engagement concepts; indigenous identity, space, place and ways of being; and intercultural/crosscultural communications and connections. Interested students may contact the instructor, Guida Leicester at mleicest@unm.edu.

WMST 279: "Gender in the 21st Century"

This interdisciplinary course explores how systems of gender are changing across the planet while at the same time longstanding dynamics of gendered oppression remain firmly in place. In addition analyzing contemporary dynamics, the course examines the history that brought us to the present day and probes the possibilities that lie ahead. Key themes include science, technology, the environment, the (post)industrial economy, migration, reproductive rights/justice, queer and transgender social movements, science fiction, and futurism. Interested students may contact the instructor, Benjamin "Summer" Abbott, at abbott185@gmail.com.

Undergraduate STEM Meetings, Scholarships, Grants, and Opportunities

- The Division of Arthropods, Museum of Southwestern Biology, UNM Biology Department is searching for a qualified undergraduate student for a 2-year part-time appointment as a laboratory technician to sort through field collected arthropod samples from the Jemez Mountains. Preference is for someone who has experience working with arthropods and who has some familiarity with the major taxonomic groups. See UNM job posting number 0834975 for more info.

- The American Indian Graduate Center (AIGC) is pleased to announce the limited availability of Science, Technology, Engineering and Mathematics (STEM) specific, graduate-level Loans for Service made available through the Bureau of Indian Education (BIE) for the academic year 2016-2017. Students can review opportunities and apply here: <https://aigc.academicworks.com/>

To be added to this listserve and stay up-to-date with upcoming events, go to UNM listserv management at <http://it.unm.edu/email/listsSignup.html> and type "UNM_STEM-L" under "list name."

You may leave this list at any time by sending an email to LISTSERV@unm.edu with "UNSUBSCRIBE UNM_STEM-L" in the message (not the subject line).
