Bulletin In Brief (read more below)...

- UNM's Veteran Sound-Off Day on Sept 21st!
- The Creeping Garden - Free Screening with The STEM Collaborative
- Free Session with NSF's Director of Graduate Research Fellowship Program
- Student-Led Central Corridor Neighborhood Study
- Free Workshop: Make Your Own Augmented Reality with ARIS
- Undergraduate STEM Meetings, Scholarships, Grants, and Job Opportunities

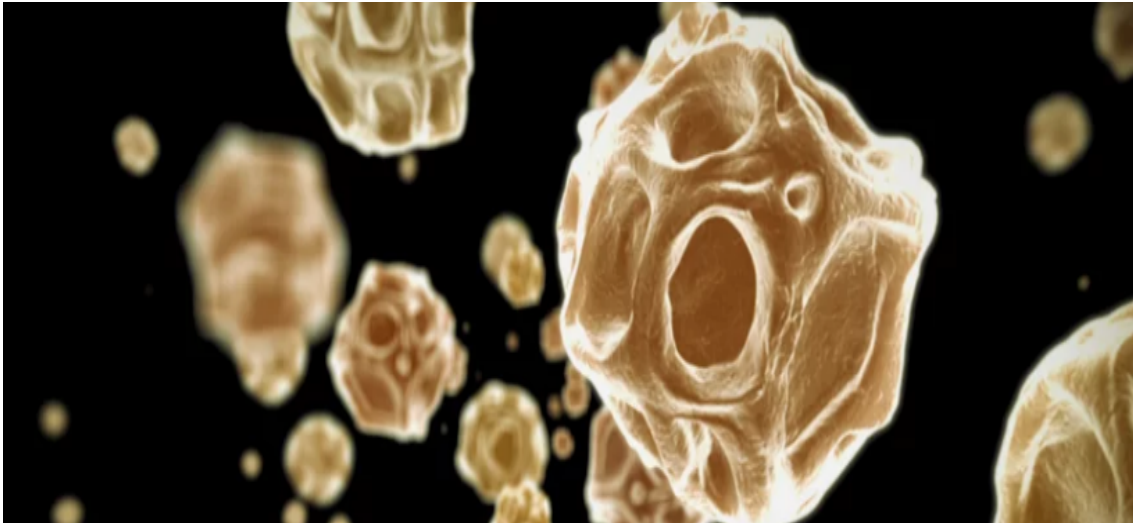

UNM's Veteran Sound-Off Day on Sept 21st!

The [UNM Veterans Resource Center](#) will be having its **Veteran Sound-Off Day** on September 21st from 9AM-3PM.

The purpose of the Sound Off day is two-fold:

- celebrate the presence of student veterans on campus and continue to build the student veteran community at UNM
- hosting a Resource Fair to connect veterans to the various benefit and service providers in the Albuquerque area

Learn more about the VRC here: <http://vrc.unm.edu/index.html>

The Creeping Garden - Free Screening with The STEM Collaborative

What do you know about slime mold? It is not a plant or an animal. It has no brain yet it is able to make intelligent decisions. Slime mold is a simple organism that consists of an acellular mass of creeping colorful jelly, a real life science fiction.

[The Creeping Garden](#) by Tim Graham and Jasper Sharp 2014 is a British documentary where scientists and artists discuss and grapple with their interest in slime mold. We will be screening the Creeping Garden at the Guild Cinema on October 20th at 4pm, 6pm, and 8pm. The Guild Cinema is a staple of Albuquerque's art and culture, a small independent movie theater located in Knob Hill <http://www.guildcinema.com>.

We will be Skyping with Tim Graham and Jasper Sharp during one of the screenings. We are also forming a discussion panel comprised of biologists and artists. Stay tuned for further information on times and participants.

Please RSVP by October 20, 2016 so that we can save you a ticket! Free admission is only offered if attending the event as a group with the STEM Collaborative.

Learn more and RSVP here: <http://stemuniversity.unm.edu/courselist/register/76>

Free Session with NSF's Director of Graduate Research Fellowship Program

The Program Director of the NSF Graduate Research Fellowship Program (Dr. Jodie Jawor) will be at UNM on Monday, September 19, 2016 to present information about the GRFP to faculty and students.

DATE: September 19, 2016

LOCATION : Centennial Engineering Center Auditorium

TIMES for Information Sessions:

Session 1 from 11:00 am to 12:15pm

Session 2 from 4:00pm to 5:15pm

RSVP by emailing nsfstem@unm.edu or calling [505-277-4354](tel:505-277-4354)

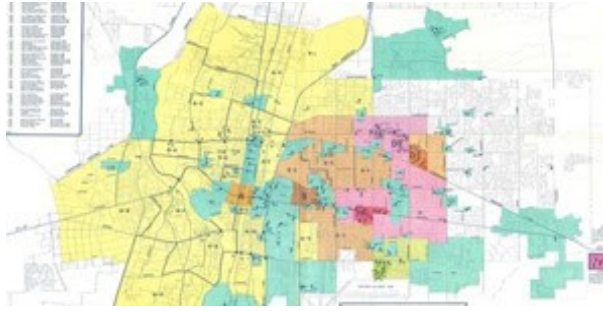

Student-Led Central Corridor Neighborhood Study

Join a student-led, community-oriented group research project with the School of Architecture + Planning!

The [School of Architecture + Planning](#) is seeking student volunteers who are interested in gaining practical experience doing field research under the guidance of graduate student leaders, faculty members, and in response to community members, non-profits, and local businesses. To gather a diverse range of information, small teams will study 5 neighborhoods on Central Corridor. Research goals include identifying neighborhoods at high risk for displacement due to transit-oriented development, and identifying ways to mitigate these risks and maximize potential benefits for communities. Activities will include mapping unused property, auditing the 'walkability' of a neighborhood, interviewing residents, cataloguing local organizations, and more.

Interested? Have questions? Send an email to the project coordinator, Cecilia McKinnon, at mckinnoncecilia@gmail.com to sign up for one or more sessions.

Free Workshop: Make Your Own Augmented Reality with ARIS

ARIS is an easy-to-use open-source tool for making and playing augmented reality experiences for all kinds of purposes. From geolocational tours, to scavenger hunts, livening up museum exhibits, mobile data collection and more, non-programmers can use ARIS to create their own interactive experiences (games, stories, etc.) for iOS (Android coming soon) devices.

This free session will be Sept 28th from 1:00 - 3:00pm.

Save your spot here: <http://stemuniversity.unm.edu/courselist/register/83>

Undergraduate STEM Meetings, Scholarships, Grants, and Opportunities

- AFRL- Space Vehicle Division coming to UNM this Friday, Sept 16. Dr. Dave Cardimon, who is a scientific advisor with the Air Force Research Laboratories (AFRL) - Space Vehicles Branch, will be giving a talk on the 16th of September to Engineering Students. He will be discussing technology and career opportunities at AFRL for our students. LOCATION: Centennial Engineering Center Auditorium, TIME: 3:00pm
- UNM's Mellon Mays Undergraduate Fellowship is now accepting applications. The fundamental objective of MMUF is to address the problem of under-representation in the academy at the level of college and university faculties. Interested students can learn more here: <https://mmuf.unm.edu/>
- New Mexico's upcoming Piñon-Juniper Symposium will be on Oct 12-14th here in Albuquerque. Learn more here: <http://nhnm.unm.edu/P-JSymposium>
- [STC.unm.edu](http://stc.unm.edu) is looking for an Innovation Intern. The student internship at STC.UNM provides a combination of experiences including learning about the field of technology transfer (intellectual property and commercialization). STC student interns have the opportunity to work with STC staff, attend STC educational seminars including presentations from visiting patent attorneys and companies, as well as interact with local entrepreneurs and investors. Learn more here: <https://stc.unm.edu/about/internships/>
- The Frederick Douglass Global Fellowship is accepting applications. Named in honor of Frederick Douglass—the African-American social reformer, abolitionist, orator, writer, and international statesman—the Frederick Douglass Global Fellowship seeks to break down the barriers of cost, curriculum, and culture to make study abroad accessible to students from MSIs. Each cohort of 10 students will take part in a summer study abroad program designed to enhance their leadership and intercultural skills in one of three locations: London, England (summer 2017); Cape Town, South Africa (summer 2018); and Seoul, South Korea (summer 2019). Learn more here: <https://www2.gse.upenn.edu/cmsi/sites/gse.upenn.edu.cmsi/files/Frederick%20Douglass%20Global%20Fellowship%20Application%20%28final%29.pdf>
- [Outcomes Inc.](http://outcomesnm.org) is looking for interns that could put in regular hours every week. Work duties would include administrative work and assisting in working with teens and Alternatives to Violence classes. Contact Tonya Covington, Director of Conflict Resolution [505-243-2551](tel:505-243-2551) or ortcovington@outcomesnm.org.
- The Center for Native American Health is seeking a highly-motivated student employee to fill the position of Program Assistant. The Program Assistant is an integral member of the CNAH and project teams and is responsible for implementing projects of varying size and complexity. Visit <http://unmjobs.unm.edu/applicants/Central?quickFind=88916> for more info.
